PROFILE

Currently studying Computer Science at Kasetsart University, 4th year. Interested in working in the mobile or web field as a frontend developer. Have basic skills in React Native and beginner-level skills in Flutter. Can communicate in English at a basic level. Currently looking for an opportunity to learn real working experience.

WORK EXPERIENCE

Project

Transcript Checking App - Group Project

- Description: An app for checking transcripts. It is used to check which subjects have already been taken and which have not. React Native is used for development, and Firebase is used as the database.

AllVit Website - Group Project

- Description: Created a responsive website using Wix for AllVit, focusing on clean design, user experience, and content structure
- Link: <https://nontapattu.wixsite.com/all-vit>

Karaoke Booking Website - Personal Project

- Description: Designed a user-friendly booking page for a karaoke service using Canva Web, with clear layout and responsive design.
- Link: <https://ma-ke-di.my.canva.site/>
